

**Preventing Opioid Use Disorder in Older Adolescents and Young Adults (ages 16-30):
Expert Panel Planning Meeting**

September 26, 2018

Meeting Agenda

Meeting Purpose: To bring together scientific experts, state and federal partners, and other key stakeholders to solicit input regarding priorities for research focused on development, testing, and implementation of interventions to prevent opioid misuse and opioid use disorder in at-risk older adolescent and young adults (ages 16-30). Topics of interest include priority populations, settings for accessing and intervening with high-risk older adolescent and young adults, existing prevention models and approaches that could be applicable, appropriate study designs and outcomes.
